AERO LINK TANZANIA LIMITED (ALTL) is a legally registered entity in Tanzania – A city strategically serving 8 East African nations from its Gateway port city of Dar Es Salaam that is situated on the stretched bank of the Indian Ocean. ALTL opened its doors in 2016 and serving as a travel agency until end of 2019 when COVID-19 was first discovered in Tanzania and the world went into a lockdown. In 2020, ALTL applied for a transportation license and started as a humble 3 trucks and triaxle trailers fleet owner transporting medicaments and food stuffs across the borders of Tanzania from the port of Dar Es Salaam. Currently, with a fleet of over 40 units of different sizes and capacities, we feed our services into several neighbouring countries. Our strategic location, state of the art onsite workshop and offices, large paved parking area under 24hour CCTV surveillance, own diesel pump stations, together with our full complement of trained employees and drivers allows for us to ensure that our customers are served with great satisfaction and integrity. Our proximity to the port of Dar Es Salaam, clearing agents and customers' offices allows us to react to bookings and requests quickly and efficiently. Our dedicated staff have several years' experience in their respective fields, ensuring that we always deliver the service now synonymous with the ALTL name and reputation. ALTL ensures that we have a team stationed strategically throughout the country borders to provide support to our fleet and border crossing processes. ALTL has an attention to details on the matter related to QSHE, which is in line with internationally recognised standards and proudly uphold high health, safety, environment and security measures. ALTL is compliant with all legislation and are compliant with international Anti-Corruption norms with our Anti-Corruption Policy. We have state of art fleet monitoring systems for real-time truck and order tracking. Together with our experienced and dedicated customer service experts we provide our customers with an intelligent integrated end to end logistics solution tailor made for their needs.

**Bollinger Shipping Agency Pty.
Ltd.**

Bollinger Shipping Agency Pty. Ltd. was begun in 1949 as a customs brokerage and over the last 70 years has evolved into all aspects of international air and ocean freight forwarding. Today there are 13 employees that are mostly Bollinger “family,” now being run by the third generation Matthew Bollinger, our Managing Director.

Bollinger Shipping Agency has been selected as one of only three freight forwarders in Australia to test the Customs Department's new Internet-based Sea Cargo Automation reporting system. Whilst we are one of the very longest established Customs Brokers and Freight Forwarders in Australia, the company is always prepared to tackle new business opportunities and considers itself one of the more innovative and versatile freight forwarders in the country. From our Sydney office we handle imports and exports to and from throughout all of Australia. Mr. Barry Bollinger serves on the SCN Technical Industry Advisory Panel and as a director of SecurityPlus Financial Corp., the member-owned company that administers our SecurityPlus! payment guarantee program.

CIMC Anda Shun International Logistics Co.,Ltd

CIMC Anda Shun International Logistics Co.,Ltd (formerly known as Shenzhen Anda Shun International Logistics Co., Ltd.), has numerous branch offices in China, Hong Kong, and Taiwan, staffed by more than 550 personnel. Our set up is not only in big gateways but also places that have potential for develop in the future. We're the master loaders in China, we have contract with more than 30 airlines and also we have signed contracts with more than 10 shipping lines. Other than the traditional airfreight / ocean freight product, we also working closely with ecommerce business. To adapt to this new business model, we need to set up an operation team and IT capability that need to meet all the marketing standard in this industries. We have a team of people that work middle of the night in PVG/SZX/CAN/HKG to receive cargo that normally comes in 0300 to ensure all the turnaround time from gate to final destination is within 48 hours. Our Company also have API connected with Posts, Express Companies, Ports, Consolidators, Wholesalers, and Customers' systems to make sure end-to-end information flow. We are also putting in more resources to promote rail services from China to Europe. We fully believe that this transportation model will get more significant and in the same class like Air and Ocean. The prospective is not only to Europe but with the one belt one route policy, it will actually cover the Asia subcontinents as well. The Company is still running with a young team with a very simple structures. All business decision can be made with couple of call and emails. This really can help us to mobilize resources within a short period of time to react with any urgent requirements or project.

ILS Cargo Chile

Founded in 1999, ILS Cargo is an international logistics company that provides solutions that add value to the supply chain of our customers, with strong expertise in freight forwarding, customs clearance, business process outsourcing (BPO), taxes advisory - a complete "door-to-door" service. In 2018, ILS Cargo expanded to the Chilean market, opening its first office in Santiago de Chile. During its years of operation this company has tackled projects of different sizes and targeting a wide variety of industries, including the aviation industry (contract for several years with Avianca and Tam), mining industry (contracts with the AMSA group), electrical industry (ENEL) and wine industry (Concha y Toro vineyards). The handling of these accounts has allowed ILS Cargo offices (Brazil, Mexico, USA & Chile) a vast experience in handling cargoes (mainly oversized and overweight cargoes). Lucky Key Investments SRL.

Thanks for coming to our SCN page.. As agents for the airlines in Romania and ocean liners in Constanta Port we are happy to support you in your shipment(s) in whatever way we can, with cost-effective, sensible solutions and the fastest possible timelines. Lucky Key also offers trucking to and from Romania throughout the European Union and we are strong in cross-trade too. No shipment is too large or too small. Our amazing staff comes from diverse backgrounds, each bringing wealth of knowledge and experience to their work. The outcome is results and a GREAT advantage for your shipments. Our standards are very high, and we can offer photo and video documentation if requested as well as inspection reports and SAT tracking especially as many are under T1 status when moved to final destination. In 2020 we became members of the Romanian Freight Forwarder's Association (USER) and FIATA. We look forward to hearing from you and working together!!!

Megrex LLC

Megrex has been fast growing in their quest to continually build and implement innovative methods of shipping services based on the needs of the clients in the National and International transportation and import/export market of Georgia. The secret of the success of the company is in its concept of commitment to team, which the company dwells on. Megrex unifies shipping and all business professionals with a huge array of transportation experience and back round in the multimodal transportation field; accumulated with both international and domestic companies. Our motivation is to unify under the concept of the company, that is to keep looking out for better ways of doing things in the transportation logistics business, never being afraid to innovate when necessary. The company efforts continually implement new marketing initiatives on Georgian as well as international logistics markets. Our knowledgeable agents will listen to your specific needs and budget and will custom fit a competitive and realistic plan for all potential new clients. Long-term observations prove that there are very rare occasions when somebody founds a company which will take the extra effort to root out and change many of the poor standards and approaches found in this fast growing industry. Unfortunately good numbers does not necessarily mean a high quality service. Our client testimony will confirm that MEGREX rates high in customer satisfaction when un-forecasted and uncontrollable transportation problems happen. This satisfaction is what maintains us a high rating in the industry, in spite of the relentless competition. That is why MEGREX initially introduces itself with concrete concept and initiative, with clear answers to concrete questions and problems. We will work out and implement our innovative solution to your shipping needs, weather for Georgian domestic transportation or the worldwide import/export transportation logistics field. Our ambition is to keep our clients from worrying about their shipping concerns. For the last 10 years, MEGREX team members, both together or separately have mastered all facets of today's transportation industry. Whether high value, easily perishable, big volume or ordinary freight, from and to any location in the world, with any method of transport, air, sea, and ground, our goal is to create a multimodal logistics platform which will provide our clients with complete peace of mind and confidence. Join and share our innovations!

Our team of specialists provide you with the guidance and advice needed to remain agile and creative in order to reduce costs, minimize risk, maximize benefits and grow. We are proud to offer services with international quality standards and management systems certified ISO 9001:2015 and AEO (Authorized Economic Operator). Through continuous and transparent communication, we become more than a service provider, we become an extension of our clients. Since January 2023, Shipmasters has joined the Via Green Program for Environmental Management (VGP) with the objective of implementing environmental management in its operations. The VGP is an initiative conceived and maintained by Via Green, structured to manage the main environmental aspects of participating organizations. Regarding climate change, in addition to the annual corporate emissions inventory, the VGP calculates the "carbon footprint" of each transport performed and offers the opportunity to offset greenhouse gas emissions through the Ecofreight certificate. Shipmasters is committed to further reducing emissions and supporting sustainable practices that flow throughout the supply chain. Excellence and commitment to our clients will always be the pillars of our company. Through any distance, across any border: Let's ship? SHIPMASTERS.

Soluciones Depco SAS

Soluciones Depco SAS was founded in 2014 and today has 10 employees. Their main focus is in the latin american market doing imports and exports in the region. Colombia is a country that presents deficit on their trade balance. Despite of this, Depco has managed to maintain similar levels of export and import, giving them the neccesary tools and relationships to provide the right opportunities to their customers and partners. In the Colombian market it is very important to have the right partner, a main distiction is that they consider themselves international advisors instead of just a freight fowarder. Customization of the process, customer knowlegde and market expertise in Colombia (in export and import) are key to succces in a challenging customs country.

SSI Logistics

SSI Logistics is a third-party logistics service provider for businesses seeking to bring more efficiency to their freight operations. We give customers a single point of contact for all their shipping needs—whether it's across town, across the country, or across the globe. Our national services include truckload, less-than-truckload (LTL), rail, and access to a private truck fleet, giving businesses flexible and reliable shipping options. With extensive expertise in international shipping and ocean freight, we navigate the complexities of global logistics to ensure seamless transportation across borders. Our knowledgeable representatives work with a large network of carriers, including air and ocean freight providers, to find the most cost-efficient way to move goods without sacrificing service. Each shipment is closely tracked to ensure it's handled properly from pickup to delivery, and every point in between. Founded in 2001, SSI Logistics is a family-owned company that puts a high value on personal service and building lasting relationships. Our sister companies provide a world of resources, allowing us to offer comprehensive logistics solutions that keep businesses moving forward—locally and globally.

The geographic shape of Vietnam has historically been compared to a rising dragon. With recent shifts in global trade, Vietnam represents one of the fastest-growing 'Dragon' economies and export success stories in the world. In 2023, T&M has invested in expanding its operations to Cantho - Mekong Delta and Nhatrang, two up and coming regions, in agriculture and aquaculture exports. Having this kind of nation-wide reach is essential to delivering effective, integrated logistics. Problems arise locally that are not easily solved from a single office in HCMC or Hanoi. So, whether you are looking to develop new business or expand your existing business in Vietnam, contact T&M to grow your logistics business in Vietnam. The T&M Dragon-slayers are standing by, ready to serve your logistics needs, in and out of Vietnam, without getting burned! TCI Carriers BV

TCI Carriers was founded in 1981. Our spirit and the confidence of several important exporters, have given us the opportunity to extend the organization from 5 to 17 employees who make sure that all consignments arrive safely at destination. We take care of the smallest details (clearing inwards, storage, customs fiscal representation, packing, combined transport, et cetera). We offer the most efficient and flexible services to our clients and favourable rates and experience, be it either 'port to port' or 'door-to-door'. We are aware that no transport is identical so we chose for a more customer directed approach. This way we can focus not only on the final result but also on the progress of every phase of the transportation process. We are AEO certified.

Wallis Shipping Services Ltd.

Founded in 1987, by husband-and-wife duo, Stuart and Sue Gregory, Wallis Shipping Services Ltd has grown to employ 35 professionals across its two main offices and four additional sub-offices at customer locations. The family-run company offers a comprehensive range of services, including sea and air exports and imports, charters, project and RORO logistics, as well as UK and European distribution. Wallis Shipping Services also specialises in cold-chain distribution, warehousing, project logistics, and the handling of letter of credit documentation. Wallis Shipping Services is proud to have been a member of SCN since the beginning, over 20 years ago. We are also members of FIATA and BIFA and hold ISO certification. In addition, the company provides expert consultancy and training across all areas of logistics. At Wallis we also offers our own in-house supply chain software, Exportease, which features container tracking and carbon emissions calculations.
