

Integral logistics service

Who are we?

STOCK LOGISTIC is a company partially owned by Grupo Alonso, one of the main logistics operators with 100% Spanish capital.

With over **30 years** of experience in the international transport field, the company provides its consultancy and export and import traffic management services for all kinds of goods.

Thanks to a strong correspondent network **in the main countries around the world**, STOCK LOGISTIC offers comprehensive logistics to its clients from and to anywhere in the world, whatever the selected means of transport is.

STOCK LOGISTIC has almost 80,000 m² in logistics facilities, strategically located at the country's primary points.

Maritime transport

STOCK LOGISTIC offers its clients total **coverage and flexibility** in their exports and imports, with a multimodal maritime transport service through agreements with the world's major shipping companies for their maritime full container loads (FCL) and less than container loads (LCL.)

Through its international agent network, STOCK LOGISTIC is present in over **187 countries**, which allows it to provide full coverage to all its clients' needs in a reliable way and with all the guarantees in the market.

For special loads, STOCK LOGISTIC has a consultancy department that is capable of providing **the best solutions** for roll-on/roll-off or extra-large loads, which takes care of all processing during the transport chain.

Air transport

STOCK LOGISTIC's air transport service offers its clients the best solutions for **fragile or urgent loads** that need special attention and speed. All this, with the assurance implied by its accreditation as **IATA AGENT** from the International Air Transport Association, which authorizes both the management and processing of air cargo, and the issuing of airway bills.

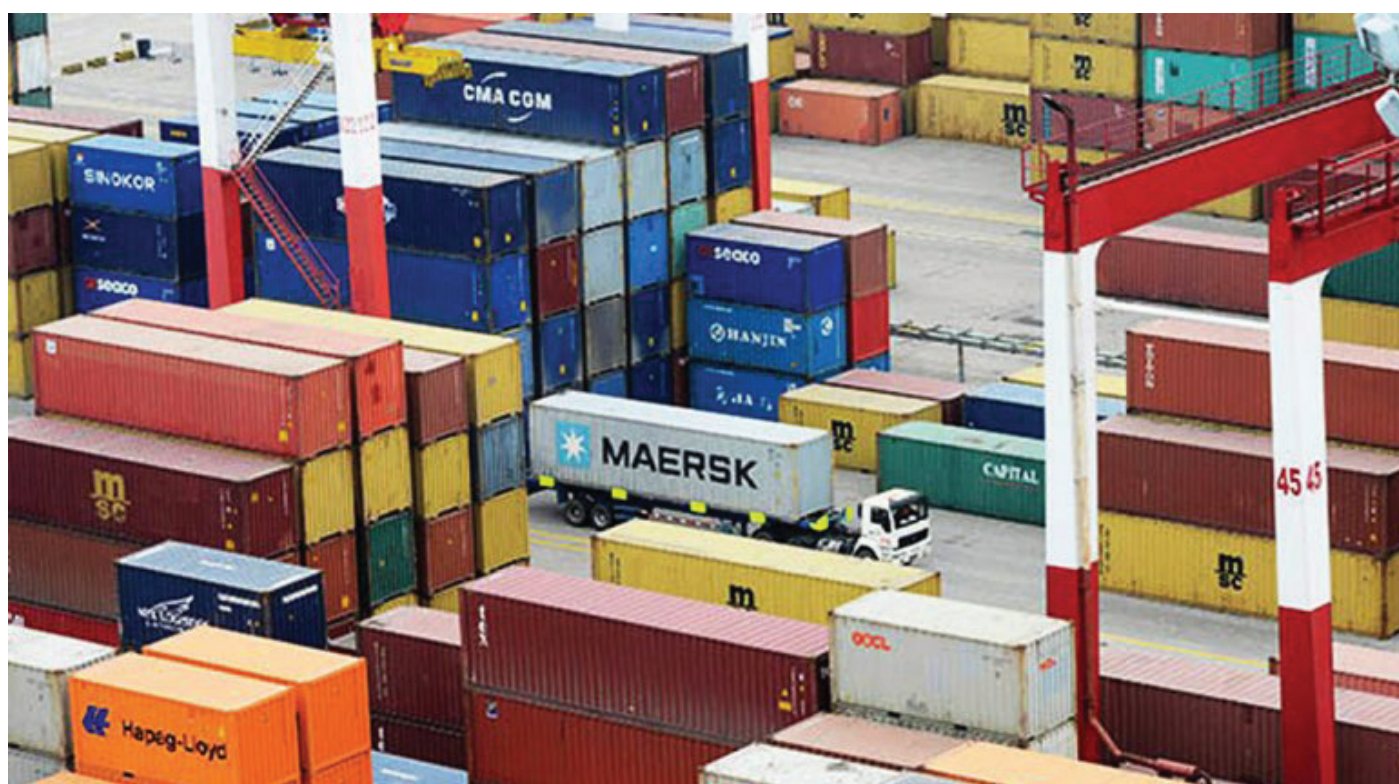

Thanks to its extensive experience in this field, STOCK LOGISTIC is a reliable ally of the **major airlines**, so it has reserved space in most flights. This ensures that goods travel to and arrive at their destination as planned.

Customs services

STOCK LOGISTIC is accredited as **AUTHORIZED ECONOMIC OPERATOR (AEO)**, a figure of vital importance in international trade, and has its own qualified personnel for customs clearance of all kinds of goods.

The AEO certification ensures **total satisfaction** in terms of observance of records, solvency, and assurance in customs, and provides authorization for **dispatching goods** at any national port and airport as it has a "Public Tax Administration centralized dispatch authorization."

Storage and distribution

FOREST PRODUCTS - PAPER AND BY - PRODUCTS

STOCK LOGISTIC is one of the leading **companies at national level** in the storage and distribution of forest products, field it is specialized in since its inception.

The STOCK LOGISTIC team of professionals has extensive experience in this type of merchandise, and it currently moves paper and its by-products to any part of the world.

The company has the **necessary equipment** for the moving of coils, bales, palletized material, or any other type of packing, in its warehouses.

Storage and distribution

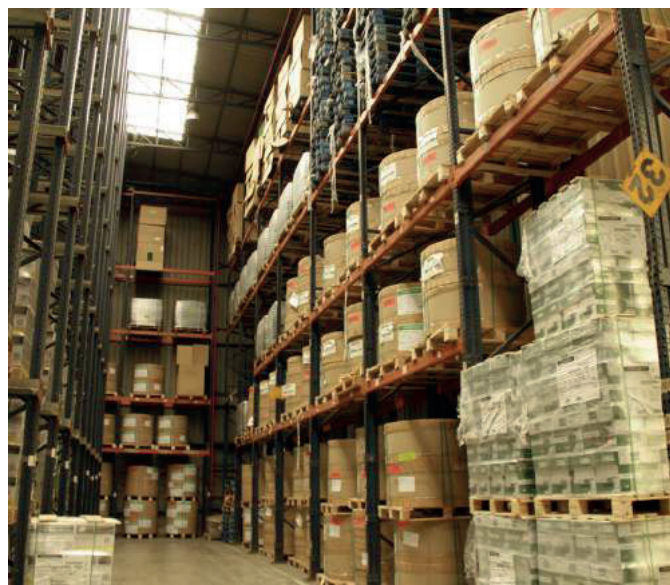

REST OF GOODS

In recent years, STOCK LOGISTIC has reinforced its commitment in the logistics field, increasing its range of storage and distribution services. The company **offers storage and distribution solutions** for any load, regardless of the industrial sector it operates in and how large or heavy the goods may be.

STOCK LOGISTIC has almost 80,000 m² in logistics facilities, strategically located at the main points: **Valencia** (over 30.000 m²), **Algeciras** (22.000 m²), **Barcelona** (10.000 m²), **Madrid** (7.000 m²) and **Bilbao** (10.000 m²), capable of covering all its clients' needs nationwide.

Facilities have authorization for operating as:

- DDA (non-customs warehouse)
- ADT (temporary storage warehouse)
- DA (customs warehouse)
- L.A.M.E. - Export-goods authorized premises

Service for perishable goods and bulk

REFRIGERATED CARGO - REEFER SERVICE

STOCK LOGISTIC has **refrigerated containers** for a correct transport that guarantees its arrival in perfect condition at destination without losing the cold chain and preserving its freshness, flavor, and texture.

FLEXITANK FOR THE TRANSPORT OF LIQUIDS

STOCK LOGISTIC offers **flexible tanks** with an efficient safety system as they are mounted inside standard containers, allowing for a considerable cost-saving.

They are single-use flexitanks with capacity **from 16,000 to 24,000 liters**, which ensures that the merchandise does not mix with other previously-transported product.

Our Canary Islands and Balearic Islands division

STOCK LOGISTIC offers a regular door-to-door service to the **Balearic Islands and the Canary Islands**, with regular departures from the main ports in the Peninsula.

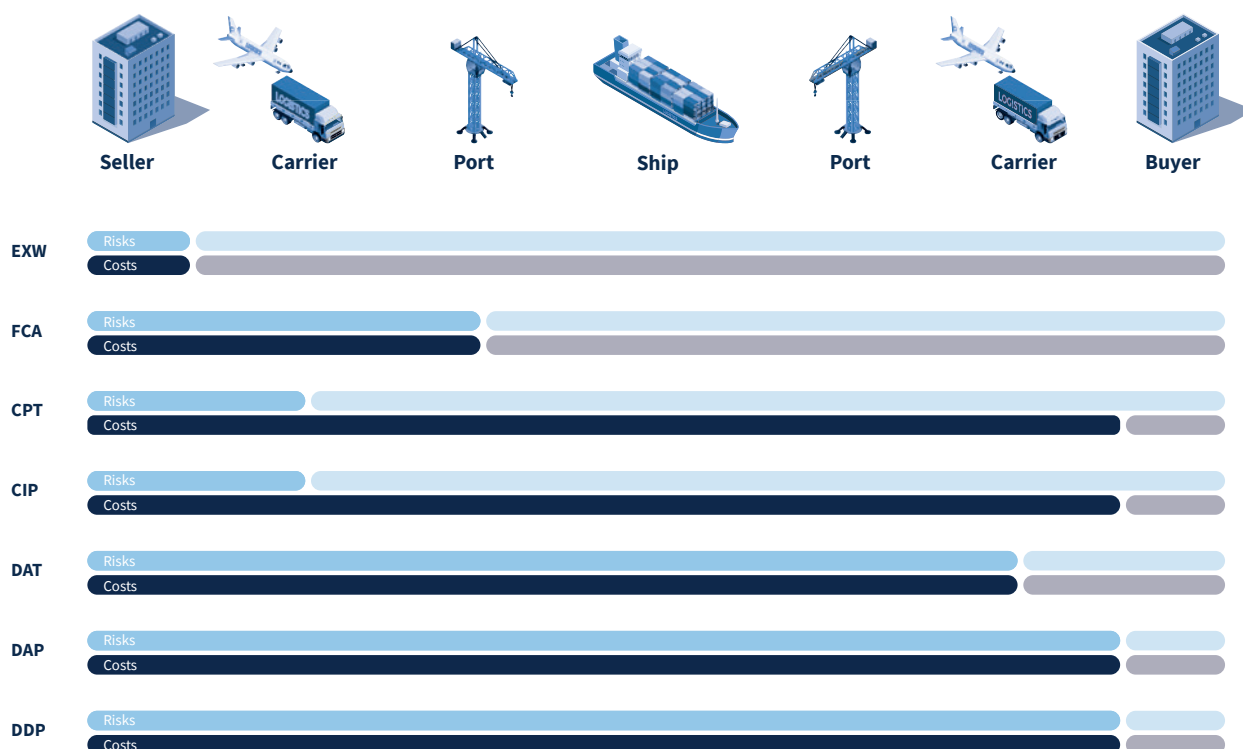

With extensive **experience in the service** with the Islands, the company suits the needs of each client, regardless of the type of merchandise (dry load, refrigerated, hazardous... etc.,) looking for the safest routes, and negotiating the most competitive and adequate market freight rates directly with the shipping companies.

STOCK LOGISTIC offers **direct weekly departures** both for full maritime containers and for less than container loads to the main ports of the Canary Islands (Tenerife and Las Palmas de Gran Canaria,) and with re-dispatching service to the Minor Islands (Fuerteventura, Lanzarote, La Palma, El Hierro, and La Gomera.)

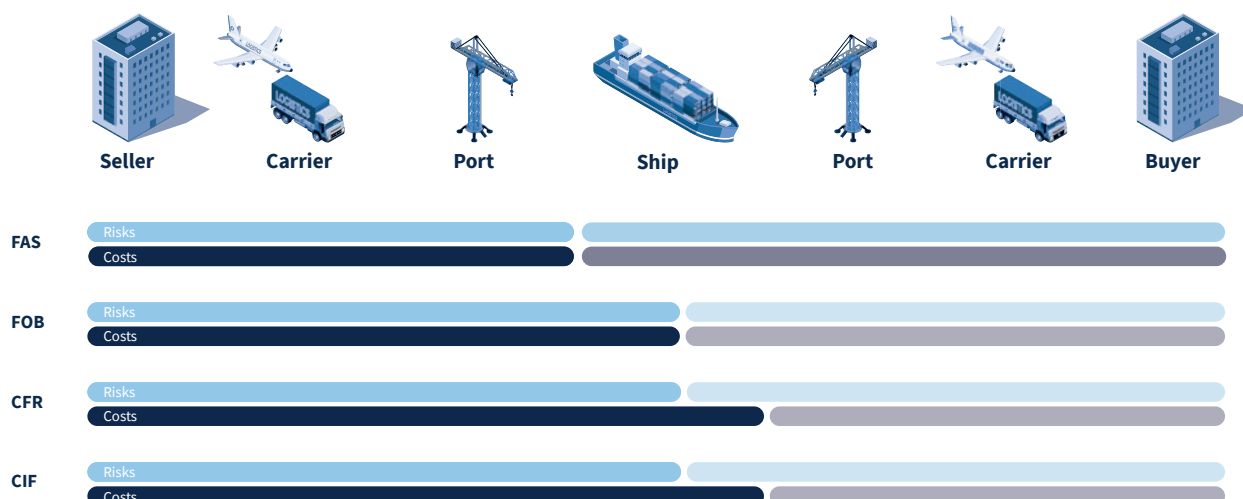

Incoterms 2010

ALL MODES OF TRANSPORT

SEA AND INLAND WATERWAY TRANSPORT

Risks

The possibility that an event may occur which could cause loss of or damage to the goods is a "risk". Buyers and/or sellers can protect themselves against risks by transport-insurance.

Costs

Covers all costs except costs of documents. Sales and purchase contracts should clearly state which costs on transfer of the goods are for account of buyer and/or seller.

Garment on hanger and clothing (goh)

STOCK LOGISTIC handles **garment-on-hanger containers** from China, Vietnam, India, Bangladesh, and Asia, offering the best transport choice for each item, either with a bar system, ropes, or in standard containers.

The various STOCK LOGISTIC teams in the countries of origin and in Spain adapt to the needs of all clients.

Hanging garments are shipped in **mobile structures** that are adaptable to the measurements of each item, facilitating their fast unloading, maximum safety for personnel, and an optimization of the transport costs.

STOCK LOGISTIC's objective is that once they are stored, hanging garments and clothing do not require any additional treatment (handling, ironing, etc.) and final distribution is made as quickly as possible.
