GEZAIRI

Gezairi Profile

The 1000 miles journey started in 1945 when Abdul-Salam Bou-Azza El-Gezairi took the first step and opened a small customs clearing office in his hometown of Beirut, Lebanon.

Over the years, Gezairi continued to expand and widen its scope of activities through hard work, diligence, and dedication to customers.

The company's commitment to excellence forged a link around the world that made Gezairi become one of the leading international freight forwarding, shipping and logistics companies in the Middle East.

Gezairi

Gezairi

The Power of Back Office

- **IT infrastructure:**

Gezairi's IT main frame structure is in Beirut, with redundancy servers that act as mirrors in Turkey. These are back up servers and are automatically live when and if required.

Gezairi is in the process of implementing SAP in all of its Entities, Iraq is no different and is scheduled to go live January 2019.

- **Accounting:**

The Head Office houses a large accounting structure, we usually consolidate every thing into the Head office in Beirut

- **Audit and process controls:**

As mentioned and inline with our corporate governance the group documents and audits the processes of all of its entities.

This is done by the head office. Iraq is no different and their process has been documented.

- **HR:**

As this is our investment, the HR's role is the most important role in the group and is looked after by Mrs. Abir Bawarshi the Admin Director who is both a shareholder and a board member.

She personally over sees all the HR process for the group.

Gezairi

The Power of Training

- Gezairi Holds a huge regard to training its people.
- We too believe in training our people.
- We find it a must to learn, a must to raise the bar in the service we give to our customers as well a to our principles.

Gezairi Express Curriers being trained for their customer service abilities. They are the faces of the image we have in the market, they must be at their best.

Thank You
