

Case study

Quick Cargo Service UK

KEY TAKEAWAYS

Problem Uncompetitive rates, slow transfers

Product solution Expert insights and a swift, secure service

Benefits realised

- More competitive exchange rates
- Saves money on every transfer
- Faster, more efficient international payments

Overview

Quick Cargo Service UK (QCS UK) are an international logistics company trading across global markets. They provide a dedicated end-to-end logistics service and tailored solutions to help support business growth.

QCS UK heard about Currencies Direct at an event hosted by Security Cargo Network (SCN) and have been using us to manage their international payments ever since.

Challenges

QCS UK were using their bank to pay suppliers in the US and Europe but were offered poor exchange rates for their transfers and found the process slow.

“Working with Currencies Direct has been really simple, straightforward and cost-effective. Having a personal currency expert to contact is invaluable and they’ve saved us time and money.”

— Rachel Harding

Managing Director QCS UK

Our solution

As SCN recommend Currencies Direct as a preferred partner, QCS UK quickly made contact.

They were impressed by how knowledgeable and helpful the team were and swiftly opened an account.

Now they contact their dedicated account manager whenever they want an update on current market conditions.

After discussing how exchange rates are performing they pick the best time to move their money and arrange the payment in a matter of minutes.

QCS UK have found the service much simpler and quicker than using their bank and have been able to make savings thanks to more competitive exchange rates and the regular market insights they receive.

The company is saving on every transfer – equating to significant savings over the course of the year.
