

# Forward thinking international payments

The Security Cargo Network (SCN) understands that even the most focused forwarders need help to flourish in the global economy.

By working with carefully selected preferred partners like Currencies Direct the SCN provides you with access to quality services with preferential rates.

As a market-leading currency provider, we can help you benefit from trusted & cost-effective payment solutions.

- ✓ **Better exchange rates than bank, meaning savings on transfers**
- ✓ **No problems & complaints for intermediary bank discounts to agents**
- ✓ **Ability to send multiple transfers (batches) for the price of one**
- ✓ **Reduces need to maintain foreign reserves in non GBP accounts**
- ✓ **Multiple currency exchange**
- ✓ **Secure, reliable and with available support.**

Access to exceptional exchange rates means your partners and agents will receive more from international currency transfers, while multi-currency accounts will allow you accept quotes in other currencies, helping you avoid additional costs being applied to cover currency fluctuations.

Currencies Direct also give you the option to send payments in batches, saving time and reducing the amount payable in transfer fees.

## Global service, personal support

As a Currencies Direct customer, you'll have access to your own currency expert, a dedicated account manager to look after your requirements and help you move your money at the right time.

You can also arrange transfers, set rate alerts, make batch payments and view your transfer history 24/7 using your online account.
