

A low-angle, upward-looking photograph of several modern skyscrapers. The central focus is a tall, cylindrical building with a blue glass facade that reflects the sky. To its right is a rectangular building with a grid-like facade. The scene is framed by a dark, curved architectural element at the top, possibly a bridge or a large overhang. The sky is a clear, pale blue.

# IT System - iTracking

**Online tracking :** Customers can track shipment status by PO#, Ref#, container numbers, B/L numbers, etc. They are able to set up various kinds of filters to search for their cargoes in the system.

The screenshot displays the iTracking system's 'Tracking' interface. At the top, there's a 'Tracking' tab and a 'Cargo Tracking' sub-tab. Below these are search filters for 'PO NO' and 'Reference No', both set to 'like' with dropdown arrows and red 'X' icons. To the right, there are filters for 'Master B/L' (set to 'like') and 'House B/L' (set to 'equal'). A 'Search Items' dropdown menu is open, showing a list of search criteria including ID, Error Status, Cycle Time, Error Message, Error Message Remark, Po, Shipment ID, Cargo Status, Tran Type, Release Type, Container No, Loading From, Loading To, POR, POR Country, POR Name, and POL. Below the search filters, there are buttons for 'Status Detail', 'Booking(1572)', and 'Pick'. A 'Status Summary' section is visible, showing a table with columns 'Seq.' and 'Tran Type'. The table lists three entries: 1 LLCL, 2 FFCL, and 3 AAIR. To the right of the search filters, there are buttons for 'SEARCH' and 'Add Filter'. Below these, there are buttons for 'CC(18)', 'POD(1046)', and 'All(3025)'. At the bottom, there's a pagination bar showing 'Page 1 of 202' and a dropdown for '15'. Below the pagination bar, there's a table with columns 'ETD', 'ATD', and 'ETA'. The table lists three entries: 7-10-05 00:00:00, 7-10-15 00:00:00, and 7-08-12 15:24:53.
