- 11 Project Cargo**

QCS – Quick Cargo Service has been one of the established logisticians on the market for almost 50 years. Air freight and sea freight are the two core businesses of the company. QCS is represented with its own offices in the most important German and European economic regions.

The generation change was successfully completed years ago. All three children of the company founder work in the company, son Stephan Haltmayer as CEO, daughter Heidi Haltmayer as Director Administration and Dr. Jennifer Melnyk reports to the finance department.
