HISTORY OF FORMATION AND DEVELOPMENT

Introduction about the company

In 2000, under the name "Viet Nam Logistics," the initial team consisted of just five individuals. All of us were young and had little experience in the field of logistics. However, with our dynamism, passion, and unwavering determination, we became the bridge for these personnel to continue on the career path we had chosen.

By 2010, the logistics sector in Vietnam had become increasingly competitive, demanding that companies in this field not only meet professional requirements but also ensure financial stability and management systems meeting international standards. As a result, Viet Nam Logistics was restructured under a new name, "Green Dragon International Logistics Corporation". The company was officially established on November 9, 2010. With this renewal, our company confidently develop quickly and more effectively.

The image of the green dragon, which the company chose as its brand vision, represents the aspiration of the young Vietnamese generation as they integrate into the global development with the hope of reaching success.
